KENSRI SWIMMING

KENSRI SCHOOL & COLLEGE
KENSRI Excellence Development System

KEN SWIMMING

Swimming is a sport that is enjoyed by all ages. The ability to swim enables people to participate in a wide variety of water sports. Swimmers are usually taught the four swimming strokes used for competitions; the front crawl, backstroke, breaststroke and butterfly, which are swum either as a single stroke or in combination over various distances.

Swimming is a relatively injury-free sport and was found to be the safest among all sports. It is non-load-bearing and does not involve antigravity work, resulting in fewer injuries. The injuries that do occur are usually due to overuse, doing too much too quickly, or breaking the rules. Swimming programmes are helpful for both the mentally and the physically handicapped as they weigh less in water, and this makes it easier for them to move their muscles, enabling them to improve muscle tone and co-ordination of movement. Pregnant women can swim during their pregnancy while many other sports are not suitable.

Swimming is also useful in rehabilitation of injured athletes. Patients with rheumatoid arthritis can improve their aerobic capacity by swimming in warm water. Asthmatics should be encouraged to swim, as swimming is the sport that is least likely to precipitate an asthmatic attack, and the fitter they are the fewer attacks they have; swimming improves their breathing. Asthma is not a handicap in achieving excellence in sport as shown by the number of Olympic gold medal swimmers who were asthmatics.

Rules and Regulations:

Please obey the pool rules and follow any instructions given. Notify the lifeguards or coaches of any relevant medical conditions that may affect you during your training.

Equipment - Training fins and hand paddles may be used but snorkels and masks are not allowed.

Please note that we do not lend out any pool equipment or training aids.

Photography - The use of cameras or mobile phones are not permitted

Clothing - only appropriate swim wear will be allowed in the pools.
